

Symbeo Invoice2Pay

Automation that just clicks.

Take control of AP with a solution purpose-built for today's AP challenges

Symbeo Invoice2Pay is an industry leading solution that finally gets the paper out of finance operations and delivers true touchless automation to your accounts payable (AP) team.

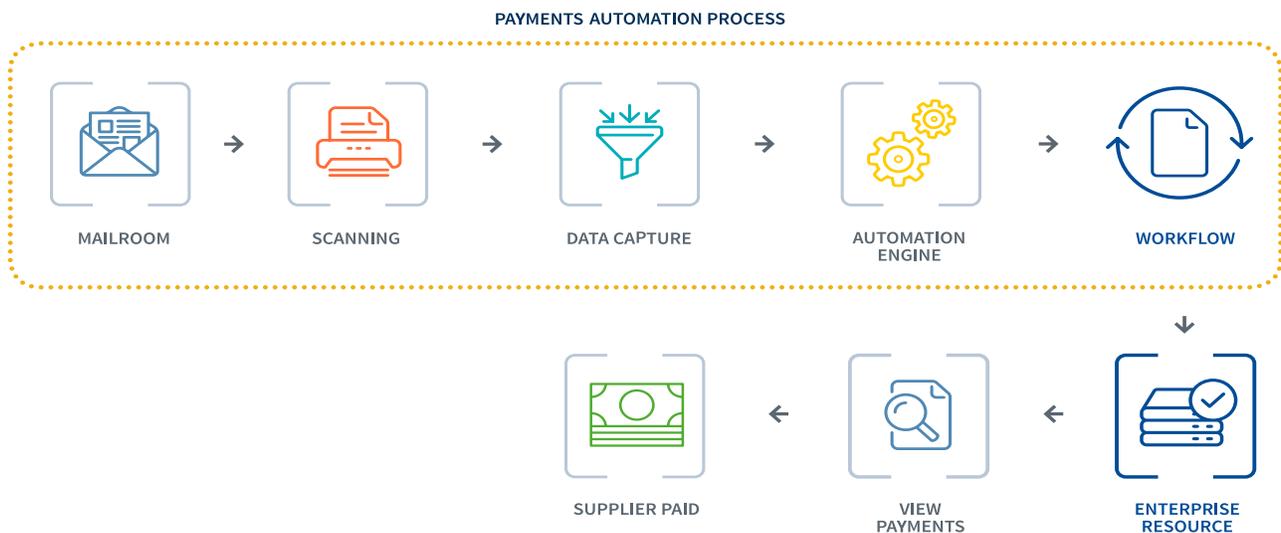

AI-enhanced OCR, together with proprietary AP software and machine learning models, removes manual invoice and check-based payment processes.

Make Payables Effortless

- Optimized payments for methods
- Check, ACH, Vcard, and other options available
- Continuous supplier enrollment and enablement
- Centralized, cloud-based invoice automation

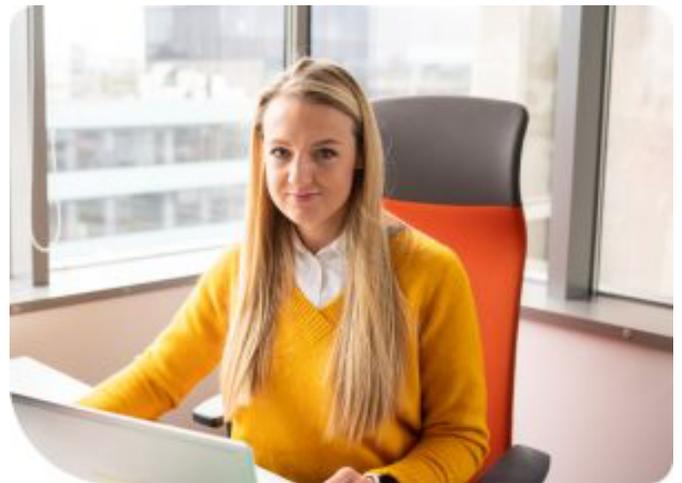

Free AP to focus on what matters

- 100% paperless accounts payable
- 80-90% straight-through invoice processing
- 100% electronic payments
- Next day turnaround

Symbeo Invoice2Pay unlocks the power of Accounts Payable with true automation

Symbeo Invoice2Pay leverages over 25 years of industry expertise to transform and automate the full invoice approval and payment cycle for all of your domestic and international suppliers.

- Eliminate inbound supplier invoices
- Eliminate outbound check payments
- Remove the burden of manual payment processing

"Symbeo has allowed us to streamline our payables process which has led us to reduce the amount of time and effort needed to maintain and manage invoices." - Sonic Automotive

Transforming AP automation for the world's most successful Fortune 1000 companies for 25+ years.
